## Education

2019 – 2022  
London **Bachelor of Science (BSc) in Computer Science,**  
University of Westminster – 1st Class Award

## Skills

React • JavaScript • TailwindCSS • Java • Spring Boot • Firebase • MySQL • HTML • CSS

## Projects

**Renting Marketplace**, React.js + Tailwind + Firebase 🔗

- Built a property renting platform where users can post listings and view properties from other landlords
- Implemented Firebase Auth so users can manage their listings and stored them in Firestore with images

**GitHub Finder**, React.js + Tailwind + DaisyUI + Vite 🔗

- Learned to share data across React components with useContext and Reducers without prop drilling
- Used GitHub API to allow users to search for profiles and display essential user information
- Designed fluid and responsive layouts with TailwindCSS and DaisyUI for extra components

**Personal Nutrition tracker**, React.js + Vanilla CSS 🔗

- Built an app to meet my food nutrient needs by tracking my meals and total intake to hit personal targets
- Users can add and delete food and meals from their food lists to easily calculate their personal food goals
- Implemented USDA Food API to fetch food nutrients for meals based on user search

**Bug Tracker Web app**, Java Spring Boot + MySQL 🔗

- Built a management platform to facilitate planning, bug fixing and feature tracking in a company scenario
- Used MySQL to design a database where members can be assigned to tickets and projects

## Professional Experience

06/2019 – 07/2019  
Seville, Spain **Web Developer Internship**, Voyager Seville 🔗

- Used WordPress to build layouts for a tourist-guide company in Spain.
- Designed web layouts and maintained a website while also learning Spanish.

06/2020 – 12/2021  
London **Construction**, RIR CONSTRUCTION

- Learned to use various tools confidently to be able to find solutions to a given plan.
- Collaborated with a team to accomplish tasks following designs from architects.

06/2017 – 04/2020  
London **Waiter**, ASAP Catering

- Worked with multiple teams and supervisors to organize events at various venues.
- Coordinated with supervisors and team members to ensure the best service.

## Awards

**Business Idea Challenge Bootcamp 2018**, Finalist at [bigideachallenge.co.uk](http://bigideachallenge.co.uk)

- Collaborated effectively with a team and a mentor to plan, design and solve a tech-oriented problem
- Presented a solution to an audience and landed first place in the competition with the team

**Tech Bootcamp 2019**, Finalist

- A similar competition where we collaborated with a different team and managed to reach the finals.
- Conducted research under a small timeframe, planned and presented ideas to an audience.
