Education

2019 – 2022 London	**Bachelor of Science (BSc) in Computer Science,** University of Westminster - 1st Class Award

Skills

JavaScript • React.js • Vite • Tailwind CSS • Node.js • Express.js • TypeScript (Beginner) • HTML

CSS • Java • MongoDB • MySQL • Firebase • Git • VSCode

Projects

Renting Marketplace, React, Tailwind CSS, Vite, Firebase 🔗
- Built a property renting platform where users can post listings and view properties from other landlords
- Integrated Firebase Auth and Firestore to enable users to manage their listings and store property images

Support Ticket Desk Fullstack, MERN - MongoDB, Express.js, React, Node.js 🔗
- Created a support ticket page for issue reporting and tracking for products such as smartphones
- Implemented user authentication and stored user tickets in a MongoDB database

Personal Nutrition tracker, React & Vanilla CSS 🔗
- Developed a nutrient intake tracker that helps users hit their nutrient and gym goals
- Users can add meals to their daily food list to easily calculate their daily intake and reach their target
- Implemented USDA Food API to fetch food nutrients for meals based on user search

GitHub Finder, React, Tailwind CSS, Vite, DaisyUI, 🔗
- Learned to share data across React components with useContext and Reducers without prop drilling
- Used GitHub API to allow users to search for profiles and display their public repository information
- Designed fluid and responsive layouts with Tailwind CSS and DaisyUI for extra components

Professional Experience

Jun 2019 – Jul 2019 Seville, Spain	**Web Developer Internship,** Voyager Seville 🔗 - Designed layouts with WordPress for a tourist-guide company among a team of 4 - Added new pages to the website and maintained it with the help of a supervisor
Jun 2020 – Dec 2021 London	**Construction,** RIR CONSTRUCTION - Collaborated with a team of 7 to accomplish tasks following designs from architects - Learned to use various tools to be able to find solutions to a given plan
Jun 2017 – Apr 2020 London	**Waiter,** ASAP Catering - Worked with multiple teams and supervisors to organize events at various venues - Coordinated with supervisors and team members to ensure the best service

Awards

Business Idea Challenge Bootcamp 2018, Finalist at bigideachallenge.co.uk
- Collaborated effectively with a team and a mentor to plan, design and solve a tech-oriented problem
- Presented a solution to an audience and landed first place in the competition with the team

Tech Bootcamp 2019, Finalist
- A similar competition where we collaborated with a different team and managed to reach the finals.
- Conducted research under a small timeframe, planned and presented ideas to an audience.
